

Token2 Programmable TOTP Token [custom-programmed] ; card format with Symantec VIP Provisioning

Part no: OTPC-EUROFINS · T2-50

Description

Token2 will have the flexibility to propose different colors (red or white) and different sizes (mini cards or credit card size) depending on stock availability

- Symantec VIP Credentials pre-generated by Token2 using Python API (VIP access library)
- Tokens to be labeled with Credential IDs (text + QR codes) using paper stickers on the PVC Sleeve
- Seeds to be provisioned for each token for the corresponding IDs using NFC burning
